The 25th Anniversary of ELSA

This year the Association will reach a quarter of a century and we intend to celebrate it properly. We will not forget the ones who helped us throughout the years, nevertheless, it means yet also another step towards consolidating our place in the International Legal community.

The International Board 2005 - 2006 considers the celebration of the 25th Anniversary as one of its top priorities and therefore will focus under the slogan „25 years of ELSA“ on a common goal within the ELSA Network and co-ordinate the progress of actions in order to optimize the evolution throughout the year.

Regarding S&C, we are looking forward for you to organize events in order to underline the changes that took place in this period. We imagined a series of S&C events, both academic and social, which would definitely underline our Association's complexity. We also would like to draw attention to how it all began and the developments since then; not only within the Network, but also to Externals. We hope this will remind us all of the history of ELSA and will make the so-famous ELSA Spirit visible, therefore we encourage you to use all the media means to promote the Celebration.

So, dear ELSA Members, now you are on the row to take us a step forward and start organising events – whatever preferences you may have – to expand the celebration also in the key areas. And who knows, maybe we can conclude the row of events in a big Final Conference.

Be proud of the 25 years we have spent, and look forward for the next anniversaries!
